BULLISH **CANDLESTICK** **PATTERN**

 <p>The Bullish Engulfing pattern consists of a red candle followed by a green candle that completely engulfs the body of the red candle. The green candle's body extends from the red candle's lower shadow to its upper shadow.</p>	 <p>The Hammer pattern features a single green candle with a small body and a long lower shadow (at least twice the length of the body). It typically appears after a period of price decline.</p>	 <p>The Morning Star pattern is a three-candle sequence: a red candle, a small green candle (the star) with a gap between the two, and a final green candle that closes above the gap.</p>
 <p>The Piercing Pattern shows a red candle followed by a green candle that opens below the red candle's lower shadow and closes above its midpoint.</p>	 <p>The Marubozu pattern is a single candle with no shadows, representing a period of continuous buying or selling. In this case, it is a green candle.</p>	 <p>The Three White Soldiers pattern consists of three consecutive green candles, each opening higher than the previous one and closing near its high.</p>
 <p>The Bullish Harami pattern consists of a red candle followed by a green candle whose body is completely contained within the body of the red candle.</p>	 <p>The Inverted Hammer pattern is a single green candle with a small body and a long upper shadow (at least twice the length of the body).</p>	 <p>The Tweezer Bottom pattern consists of two green candles that have identical or nearly identical low prices, indicating a temporary halt in the downward price movement.</p>

The image shows a configuration window for a trading strategy named "simple scalping - papamallis". The window has a dark background and a title bar with a close button (X). Below the title bar, there are three tabs: "Inputs", "Style", and "Visibility". The "Inputs" tab is currently selected, indicated by a white underline. Under the "Inputs" tab, there are three input fields:

- Loockback**: A text input field containing the value "6".
- Ema_input**: A text input field containing the value "4", with up and down arrow buttons to its right for incrementing or decrementing the value.
- Loockback_hl**: A text input field containing the value "2".

At the bottom of the window, there are three buttons: "Defaults" (with a dropdown arrow), "Cancel", and "Ok".
